Dear Giuseppe;

We want to thank you for the beautiful work you did on our bathrooms. We are so happy with the way you did the work. Your professionalism made it very easy to work with you. You communicated so well with our designer that it made the project go very smoothly. We appreciated your honesty when we had to make some choices concerning the design, and your knowledge about the application of the different tiles was invaluable.

Thank you again for helping to add beauty to our home. When my friends and family are looking for a professional tile person to do work in their home or office, we most surely will recommend you.

Sincerely,

Patti & Alan K.
