Giuseppe Tile Corp.  
1005 Westminster Avenue  
Dix Hills, New York 11746

To Whom It May Concern;

Giuseppe Tile Corporation of Dix Hills recently completed the tile job in my house currently under construction in Watermill, NY. The job entailed tiling flooring and walls in several bathrooms and floors in the kitchen, breakfast nook and mud room.

Giuseppe and his crew did an excellent job. They worked hard, showed up when expected (no small consideration these days) and finished each room like they considered it a work of art. Some of the work was quite complicated, but the quality of the finished product in all cases added to the beauty of the rooms.

I have no hesitation in recommending Giuseppe Tile Corporation when high quality work is needed.
